

**ENERGY STAR QUALIFIED PRODUCT**  
**LONG BULB LIFE**  
**25 WATTS**  
**ENERGY USED:**  
**1,400 LUMENS**  
**LIGHT OUTPUT:**

**COMPACT FLUORESCENT LIGHT (CFL)**

**INTRODUCTORY SAMPLE**

This introductory sample is available to Poudre Valley REA consumers for demonstration purposes, and does not represent an endorsement of a particular manufacturer or product. Sale of this item, by an individual or business, is strictly prohibited.

Visit your local retailer or electrical distributor to purchase additional energy-saving lighting products.

This product contains mercury and should be disposed of properly.

Made with Lead-free Solder and Glass.

**CAUTION:**

- Use only on 120V 60Hz circuits.
- Not for use where exposed to the weather.
- Not for use in fixtures controlled by a dimmer.
- Not for use in totally-enclosed recessed fixtures.

Meets FCC 47 CFR Part 2 and Part 18 for consumer RF Lighting Equipment limits.

Color Temperature = 2,700K  
 Color Rendering Index = 83

**ENERGY STAR qualified light bulbs:**

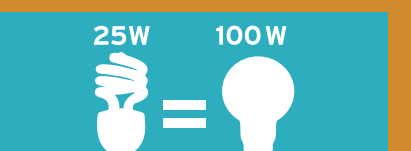

- are available for most applications
- use approximately 66% less energy
- can last up to 9-11 times longer
- generate about 66% less heat than incandescent light bulbs.

CFLs are convenient for hard-to-reach or high-use fixtures, as they need replacing less often.

Plus, they come in different shapes and sizes, including spiral and globe, to fit in most residential fixtures.

One CFL may outlast 11 incandescent bulbs.

One 25W CFL provides equivalent light output to a 100W incandescent bulb.

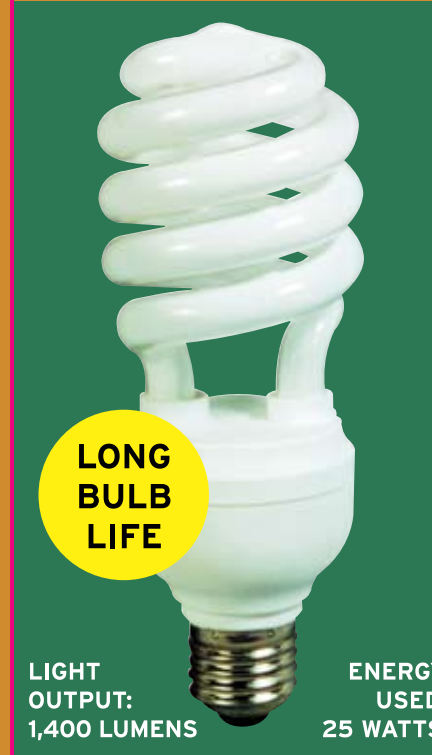

Use the chart below to help choose between different CFL wattages:

Incandescent Wattage	Equivalent CFL Wattage	Lifetime Savings per CFL*
40 Watt	11 Watt	\$27.36
60 Watt	15 Watt	\$41.04
75 Watt	20 Watt	\$51.30
100 Watt	25 Watt	\$57.00

\*Versus incandescent equivalent.

**INTRODUCTORY SAMPLE**

**COMPACT FLUORESCENT LIGHT**

**LONG BULB LIFE**

**LIGHT OUTPUT:**  
1,400 LUMENS

**ENERGY USED:**  
25 WATTS

By choosing ENERGY STAR qualified products, you'll save money, energy, and the environment without compromising quality or comfort. Using CFLs reduces carbon emissions and helps preserve the environment.

For more information on ENERGY STAR qualified lighting, call Poudre Valley REA at 800-432-1012 or go to [www.pvrea.com](http://www.pvrea.com)

Poudre Valley REA offers a full range of services to help our consumers reduce their energy use. For more information, please call our website.

You can preserve energy resources and reduce the risks of global warming while saving money and time buying and changing lights in your home.

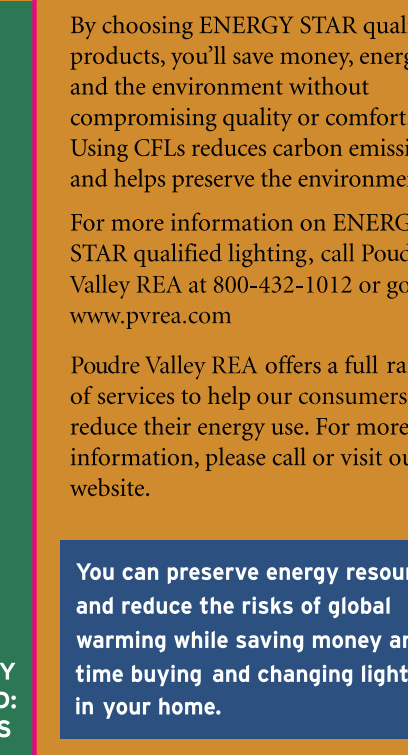

Meets FCC 47 CFR Part 2 and Part 18 for consumer RF Lighting Equipment limits.

Color Temperature = 2,700K  
 Color Rendering Index = 83
